

FVHD Laboratory Confirmed Influenza Cases

October 1, 2022 – March 4, 2023

Laboratories report positive influenza tests to DPH and all data for this report are sourced from the Connecticut Electronic Disease Surveillance System (CTEDSS). These data are likely underestimated as they do not include rapid tests. These data are preliminary and subject to change.

FVHD Visits to Emergency Departments or Urgent Care Centers for Influenza Like Illness October 1, 2022 – March 4, 2023

DPH EpiCenter receives near real-time information about ED visits from hospitals throughout Connecticut and some Urgent Care Centers. These data are preliminary and subject to change.
