FEE: \$155.00 per lot

Request for Soil Test Observation

The FVHD requires that a staff member be present to witness soil testing when the result of such testing will necessitate a report or plan review. This includes but is not necessarily limited to land subdivisions and individual lots where septic systems will be utilized for sewage disposal.

In order to make an appointment with a FVHD staff person, the following application must be filled out and submitted with the appropriate fee. It should be noted that all soil testing, deep pit observations and percolation tests, must be conducted by a professional engineer and coordinated with FVHD staff. It is the applicant's responsibility to secure the services of the engineer and any necessary equipment, such as a backhoe.
